## **REPORT OF THE PRESIDENT**

*To His Excellency, the Governor,  
Members of the Legislature,  
and Board of Public Charities:*

SIRS:

The Trustees of the State Hospital of the Northern Anthracite Coal Region herewith respectfully submit reports setting forth in detail the services performed by this institution for the last two fiscal years, ended respectively May 31st, 1919, and May 31st, 1920, which we trust will meet with your approval. Reference to the accompanying statistics will show specifically the work done in each department.

The total Hospital bed-days for the year ended May 31st, 1919, were 50,498, and for the year ended May 31st, 1920, were 49,621. The continued advance in cost of supplies and labor has naturally and unavoidably resulted in increased cost per patient per day, in consequence of which we are again confronted with a prospective deficit in Maintenance Account for the fiscal year ending May 31st, 1921. As nearly as can now be estimated, this deficit will amount to at least \$50,000.00. It should be explained, however, and borne in mind that the appropriation granted us for Maintenance for the current two-year period beginning June 1st, 1919, was \$20,000.00 less than we received from the State for the preceding two years. This was on the theory that costs would be lower. Our average costs for the two years ended May 31st, 1919, and 1920, were \$2.76 and \$3.26 respectively per patient per day.

Our rates for private rooms, paying patients in the wards, Workmen's Compensation cases, and all other facilities or services for which charge is made, have from time to time been increased in proportion to the advance in cost of Maintenance.

Because of the prevailing high cost of materials and labor in 1919, we refrained from requesting appropriations for much-

needed improvements and new equipment. However, the necessity for certain additions and improvements has now become urgent, and at the proper time we shall present our request for appropriations for such purposes as are most essential.

We particularly need an additional story to our Nurses' Home to provide satisfactory living quarters for pupil nurses now housed in rented rooms off the Hospital property; also a new Dining Room and Kitchen for the Nurses, as the present accommodations are entirely inadequate and unsatisfactory for that purpose. The prevailing shortage of nurses and growing scarcity of applicants for training are too well known to require emphasis in this report, but we do wish to point out and emphasize the fact that comfortable and attractive living quarters and conveniences are absolutely necessary to attract prospective applicants to any training school, and this requirement is particularly important in the case of State institutions if the most desirable and best qualified pupils are to be secured. This situation seems to be steadily becoming more serious and the only alternative to an adequate staff of pupil nurses would be the employment of Graduates at much greater expense.

We also are badly in need of additional Laundry capacity as well as more Dispensary room and facilities to properly meet the demands of the Hospital, and the plan worked out for taking care of these requirements will be submitted in due course with our application for appropriation of funds to provide the same.

The property of the Hospital has been maintained in good physical condition, although in view of the impending deficit in Maintenance it has been found necessary during the present year to curtail as much as possible expenditures for painting and other repairs, which will have to be done, however, as soon as circumstance will permit.

During the past two years we have had the sad misfortune to lose by death two most valued and devoted associates. Hon. Edmund B. Hardenbergh, appointed a Trustee by Governor Stone in 1901, upon the incorporation of the Hospital as a State institution, was the last surviving member of the original Board. He was elected President of the Board in 1911, and held that office at the time of his death, April 4th, 1919.

Dr. Alexander J. Connell, who succeeded General Hardenbergh as President of the Board, was appointed a Trustee by Governor Stewart in 1907, having previously been a member of the Staff for upwards of thirty-five years. He passed away on December 18th, 1919.

Dr. Connell was succeeded as President by the present incumbent. Messrs. George G. Brooks and C. S. Woolworth, respectively, were appointed Trustees to fill the vacancies thus created.

We gladly avail ourselves of this opportunity to testify to the efficient and faithful services of our Staff members, gratuitously rendered, which have been of inestimable value to the Hospital and the community it serves.

We also wish to express our deep appreciation of the appropriations received at your hands in the past and bespeak your continued co-operation and support.

FRANK HUMMLER,  
*President.*

**RESOLUTIONS**  
**OF THE BOARD OF TRUSTEES ON THE DEATH OF**  
**HON. EDMUND BURNHAM HARDENBERGH**

"Whereas: The hand of death has touched the Hon. Edmund Burnham Hardenbergh, President of the Board of Trustees of the State Hospital of the Northern Anthracite Coal Region of Pennsylvania, and he has been taken from our midst;

Resolved, That we, the Trustees of the State Hospital of the Northern Anthracite Coal Region of Pennsylvania, deplore the loss of one, whose unselfish broad charity and whose upright character have endeared him to all who came in contact with him;

That we offer to his bereaved widow and his children our heart-felt sympathy in the great loss they have sustained, with the prayer that our Heavenly Father may comfort them in their sorrow.

That this resolution be spread upon the minutes and that a copy be sent to Mrs. Hardenbergh.

A. J. CONNELL,  
MORTIMER B. FULLER,  
P. SILAS WALTER,  
RT. REV. M. J. HOBAN,  
W. G. FULTON,  
FRANK HUMMLER,  
HENRY F. MANZER,  
C. S. WESTON,"

April 7th, 1919.

**RESOLUTIONS**  
**OF THE BOARD OF TRUSTEES ON THE DEATH OF**  
**ALEXANDER JAMES CONNELL, M. D.**

"Whereas: We are again called upon to deplore the death of one of our associates, Alexander James Connell, M. D., who departed this life on December 18th, 1919, and we desire to place on record a testimonial of our deep affection and high regard for him as well as our appreciation of the great loss sustained by the Hospital and this community.

Dr. Connell first became connected with this institution upwards of thirty-five years ago as a member of the Visiting Staff of the former Lackawanna Hospital, was for many years its Chief of Staff and had been continuously identified therewith until his death. In 1907 he was appointed Trustee of the State Hospital, being at the time of his death President of the Hospital and a member of its Consulting Staff.

Early in his professional career Dr. Connell achieved prominence as a surgeon, and his manifest ability coupled with an integrity of purpose and estimable personality soon placed him at the forefront of his profession. He was ethical to the highest degree, highly respected by his fellow practitioners, and revered and loved by his patients.

Resolved, That in the death of Dr. Connell the Hospital has lost a valued friend and supporter, and the Trustees a congenial and devoted co-worker, whose untimely passing we sincerely regret.

Resolved, That this resolution be spread upon the minutes and a copy thereof be sent to Mrs. Connell with assurance of our profound sympathy and condolence.

MORTIMER B. FULLER,  
P. SILAS WALTER,  
RT. REV. M. J. HOBAN,  
W. G. FULTON,  
FRANK HUMMLER,  
HENRY F. MANZER,  
C. S. WESTON,  
GEO. G. BROOKS."

December 18th, 1919.

## REPORT OF THE SUPERINTENDENT

To the Board of Trustees of the State Hospital:—

Gentlemen:—

I beg to submit herewith reports for the years ended May 31st, 1919 and 1920, respectively, of which the following is a summary:

	1919	1920	Decrease	Per cent
Number of Bed Days for In Patients .....	50498	49621	877	1.7
Daily Average Number of In Patients .....	138	135	3	2.1
Number of X-Ray Pictures Taken .....	1464	1188	276	1.8
Receipts from Patients....	\$35,905.33	\$35,671.18	234.15	.65
Average Day's Stay per Patient .....	16	16		
Number of In Patients Treated .....	3219	3102	117	3.63
Number of Out Patients Treated in Dispensary..	4427	3742	685	15.4
Number of Ambulance Calls	897	814	83	9.2
	1919	1920	Increase	Per Cent
Per Capita Cost.....	\$2,819	\$3,266	.447	15.8
Total Expenditures.....	139,690.47	162,087.15	22,396.68	16
Number of Visits made by Out Patients.....	11692	12780	1088	9.3
Number of X-Ray and Electrical Treatments.....	254	382	128	50.3
Number of Operations Performed .....	1298	1649	351	27.
Number of Laboratory Examinations .....	4676	6912	2236	47.8
Number of Patients Treated in Accident Room...	1018	1062	44	4.3

Respectfully submitted,

JOHN L. BURGAN,

*Superintendent.*

**REPORT OF**  
**THE TRAINING SCHOOL FOR NURSES**  
For the Year 1920

---

*To the Board of Trustees of the State Hospital:*

GENTLEMEN:

I have the honor to present the annual report of the School of Nursing with the following enrollment of graduates and pupil nurses:

Directress School of Nursing.....	1
Instructor .....	1
Night Supervisor.....	1
Supervisor .....	5
Graduate Nurse Anesthetist.....	1
Pupils .....	38
Pupils in Preliminary Class.....	6
Graduates on General Duty.....	3
Assistant X-Ray Room.....	1

Including the probationers we are short eight student nurses. This is the first time that we have had an actual shortage of nurses, although the number of applications have been falling off for the last two years.

We have been compelled to employ three graduate nurses for general duty, in order to maintain the high standard of nursing care for our patients.

The shortage of student nurses is general all over the country, but we have heretofore had no difficulty in getting enough desirable applicants to fill all vacancies, but with two schools of nursing in this vicinity with an eight hour day for students, it will be unceasingly hard for us to keep up our standards.

The students have a ten hour day duty. These hours are quite too long, for the conservation of the health of the nurses, and some means must speedily be found for shortening the hours of night nurses who are now doing a twelve hour duty. Our housing condition remains unsatisfactory.

The Nurses' Home cares for forty-five nurses. The Shiffer Apartments with their inferior plumbing and lack of proper heating facilities, provide for fifteen more beds with

crowding. But even with these there are accommodations for the admission of but a small class in September, and that will mean another shortage of nurses in about a year's time.

A number of the graduates of this school are now holding important posts in other institutions and various fields of public health nursing; several are serving as Head Nurses and as an assistant in X-Ray Rooms in the Hospital.

Through all the periods of the school year the high standard of teaching has been maintained.

We had one serious illness during the year, and one death. One student developed Tuberculosis and was sent to White Haven Sanitarium by the Hospital. She has completely recovered and is returning to the school in the Autumn.

Miss Elizabeth Skinner, a first year student, died of Chorea Insanies after a week's illness, despite every effort made to save her life.

Exercises for the graduating class were held May 26th in the Century Club. Mr. George Brooks, Vice President of the Board of Directors, presided. Fourteen members of the class received diplomas. These students have taken full advantage of their opportunities.

The addresses to the class were delivered by Miss Roberta M. West and Dr. W. G. Fulton.

Mr. Mortimer B. Fuller, Chairman of the Training School Committee, in presenting the diplomas and school pins, said they would meet the public need for service of the highest order.

Grateful acknowledgment is made to the members of the Visiting Staff of Physicians and Surgeons for their co-operation in supplying satisfactory lecture courses, and for care rendered members of the school during illness, and to thank your Board and the School of Nursing Committee for their unfailing support in our work. To express my appreciation of the loyalty and co-operation rendered by the Nursing Staff.

Respectfully submitted,

IDA D. ARNOLD, R. N.  
Drectress, School of Nursing.

## **LIST OF DONATIONS**

American Bank of Commerce, One Dozen Thermometers.

Retinal Hemorrhage . . . . .	1

## STATISTICAL TABLES FOR 1919

### CASES TREATED IN DISPENSARIES—Continued

#### EYE

Retino Chloroiditis . . . . .	1
Staphyloma . . . . .	1
Strabismus . . . . .	3
Trachoma . . . . .	4
Trichiasis and Symblepharon . . . . .	1
Ulcer of Cornea . . . . .	19
Wound, Punctured of Eyeball . . . . .	2
Total . . . . .	395

#### EAR, NOSE AND THROAT

Adenoids . . . . .	135
Adenoids and Hordeolum . . . . .	1
Adenoids and Tonsils . . . . .	94
Contusion of Tympanum . . . . .	1
Deflected Septum . . . . .	30
Elongated Uvula . . . . .	1
Epistaxis . . . . .	10
Ethmoiditis . . . . .	1
Foreign Body in Ear . . . . .	10
Foreign Body in Nose . . . . .	3
Foreign Body in Throat . . . . .	3
Hypertrophy of Inferior Turbinate Bone . . . . .	4
Hypertrophy of Tonsils . . . . .	32
Impacted Cerumen . . . . .	10
Laryngitis . . . . .	3
Laryngismus, Stridulus . . . . .	1
Mastoiditis . . . . .	9
Otitis Media . . . . .	35
Obstruction of Eustachian Tube . . . . .	1
Pharyngitis . . . . .	10
Polypus of Ear . . . . .	5
Polypus of Nose . . . . .	6
Rhinitis, Atrophic . . . . .	5
Sinusitis . . . . .	11
Sinusitis, Frontal . . . . .	7
Spur, Nasal . . . . .	4
Tonsillitis . . . . .	15
Trachitis . . . . .	1
Ulcer of Septum . . . . .	2
Wound, Punctured of Antrum . . . . .	2
Total . . . . .	452

#### SUMMARY OF DISPENSARY PATIENTS TREATED

Surgical Cases . . . . .	2,561
Medical Cases . . . . .	1,019
Eye Cases . . . . .	395
Ear, Nose and Throat Cases . . . . .	452
Total . . . . .	4,427
Dispensary Visits . . . . .	11,692
Accident Cases Treated in Emergency Department but not Admitted to the Hospital . . . . .	404

#### REPORT OF X-RAY DEPARTMENT

X-Ray Pictures . . . . .	1,464
X-Ray and Electrical Treatments . . . . .	254

# ACT OF ASSEMBLY

*Incorporating the State Hospital of the Northern Anthracite Coal Region of Penn'a.*

2 2

## AN ACT

To provide for the Acceptance by the Commonwealth of Pennsylvania of a Conveyance of the Real Estate, Buildings and Personal Property of the Lackawanna Hospital of Scranton, Pennsylvania, to be used as a State Hospital for the Northern Anthracite Coal Region of Pennsylvania; Providing for the Incorporation of "The Trustees of the State Hospital of the Northern Anthracite Coal Region of Pennsylvania" and for the Management of the same; and making an Appropriation for the Repair and Improvement thereof.

Whereas, The Lackawanna Hospital of Scranton, Pennsylvania, has, since its organization under special charter from the Legislature in one thousand eight hundred and seventy-one, maintained a public hospital and dispensary in the City of Scranton, Pennsylvania, for the reception and care of the sick and injured of that city and vicinity; and

Whereas, There is at present no State Hospital for the Northern Anthracite Coal Region, although such a one is imperatively required, and the said Lackawanna Hospital of Scranton, Pennsylvania, whose hospital is located in the center of said region and convenient of access to every part thereof, are willing to convey to the State their property in said City of Scranton, to be used and managed as a State Hospital for the reception and care of the sick and injured of said district; Therefore,

Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met and it is hereby enacted by the authority of the same, that the Governor of this Commonwealth is hereby authorized on behalf of this Commonwealth, immediately after the passage of this act, to accept a conveyance and transfer by deed in fee simple from the Lackawanna Hospital of Scranton, Pennsylvania, to the Commonwealth of Pennsylvania, of all the real estate, buildings and personal property of said hospital, and upon the due execution and delivery of the said deed, the Governor shall cause the same to be recorded in the proper county. Whereupon, immediately after the passage of this act, the Governor shall appoint a board of managers or trustees consisting of nine members, who shall be a body politic or corporate by the name and style of "The Trustees of the State Hospital of the Northern Anthracite Coal Region of Pennsylvania," who shall serve without compensation other than necessary traveling expenses incurred in the discharge of the duties pertaining to the above-named institution, and such expenditures shall be paid out of moneys in the State Treasury not otherwise appropriated, and who shall manage and direct the concerns of said institution and make all necessary By-Laws and regulations not inconsistent with the Constitution and Laws of this Commonwealth.

Section 2. This hospital shall be specially devoted to the reception, care and treatment of injured persons in the Northern Anthracite Coal Region, composed of the County of Lackawanna and the adjacent counties of Wyoming, Susquehanna and Wayne, and in the order of admission this class shall have precedence over paying patients.

Section 3. It shall be lawful for the Trustees of said Hospital to receive contributions or donations from any person, firm or corporation offering to contribute or donate any money or other valuable consideration, whether by will, deed, gift or otherwise, to aid in the support, maintenance and for improving the property of said hospital; provided, that the proceeds of all contributions or donations received by the said Trustees under the provisions of this section shall be specially appropriated for the purposes herein stated; provided further, that an itemized statement of the same, showing the whole amount of money received by the said Trustees under the provisions of this section and the name or names of any person, firm or corporation contributing or donating the same, together with an itemized statement of the expenditures of said money, shall be made quarterly under oath to the Auditor General, the same as statements for State appropriations are now required by law.

WILLIAM A. STONE, Governor.

July 18, 1901.

WILLIAM A. STONE  
Governor
